# Sanforizing

# Yarn Dyeing

Our yarn dyeing plant is the latest technology of its kind. It is the most sustainable dyeing system due to its low consumption of water and energy.

## STATE OF THE ART MACHINERY

- Soft Winding from FADIS
- Yarn Dyeing LORIS BELLINI
- Hydro Extractor, DETTIN S.P.A

### CAPACITY

**1 Million** KG per annum

# SPACE DYEING

A technique that allows us to dye up to 8 colours on a single thread of yarn resulting in a multicolour effect on the fabric.

Each cone is dyed within 60 seconds!

## SPACE DYEING YARNS CAN BE USED IN

Weaving

Knitting

Home Textile

Apparels

A vertical photograph showing a section of a stainless steel wall. A rectangular plaque is mounted on the wall, featuring the word "Rapid" in large white letters, followed by "XIAMEN RAPID CO., LTD." and some smaller text. Below the plaque, a red fabric sample is draped over the edge of a metal frame. The background is a plain, light-colored wall.

## Laboratory

With the help of a state-of-the-art laboratory, ZTM ensures that every lot is tested and that all the products are of the highest quality standards. All our dyes and chemicals are **OEKO - TEX** approved, ensuring that our fabrics safe to wear.

We conduct a variety of tests on cotton, yarn and fabrics.
